

# Secure Charging Cart for Notebooks or Chromebooks

Rear door: inside view of QUICK→SET cable management

- Secures and charges up to 36 notebook PCs or Chromebooks (up to a 15" screen) on three shelves (12 per shelf), stored vertically
- Innovative and secure three-point locking system: simply *the most secure* cart of its type, *anywhere*
- Whisper quiet ventilation fan pre-installed
- Rear locking door with access only to the power strips and cabling; allows fast, easy, secure set-up
- Power supply bricks plug directly into IEC adapted outlets. This removes 108 feet of cabling, making the installation/integration of the cart quicker and neater than any conventional cart (QUICK→SET).
- For devices that have higher power demands, a power distribution timer controls the power with two zones, each having to available outlets, optimizing charging for available power
- 36 power outlets; two always-on outlets in the timer; one for a ventilation fan and one for auxiliary use; single exit cord; external lighted on/off switch, IEC adapters included
- Molded cord wrap brackets for safety and convenience
- ABS fire-rated plastic dividers; removable and adjustable in ¼" increments
- Additional equipment can be placed on top
- Meets all applicable safety standards
- Four 5" medical grade wheels (all wheels swivel and lock)
- Color-coded keying for front and back compartments
- Unique ID card system for naming cart
- Weight: 171 pounds (empty)
- Dimensions: 24.5"W x 23.3"D x 45"H
- Slot dimensions: adjustable width, 17 ¼"D x 11 ½"H
- Proudly made in the USA
