

Sync-and-Charge iPad minis in Secure Storage

Secure and compact, this cabinet is perfect for classrooms, libraries and training facilities where multiple iPad minis (and some other 7" tablets) have to be protected, charged and "synced." And, like the minis themselves, it takes up very little physical space.

Secure: The Netsafe has a highly secure integrated locking mechanism, the hallmark of all Datamation Systems products. You work hard for your technology resources. You might as well protect them with real security.

Sync: The DS-NETSAFE7-SC-16 simultaneously syncs or charges up to 16 iPad minis and plugs into a standard wall outlet. It uses a USB connection to iTunes or Apple Configurator and meets all Apple performance specifications. If you keep your minis in cases or use them with scanners or battery packs, its dividers can be adjusted to handle even the thickest cases we have seen. (Not all carts and cabinets can say this.)

Sustainable: Uses Apple-provided cables, reducing waste and lowering costs for our customers; made with recycled material where possible; energy-efficient design; durable and adjustable so it can change with new technology.

Model # DS-NETSAFE7-SC-16

Contract Number: B222601

FAMIS # 31-3688.28.1

Vendor Code: DAT014

Price: \$1,450.15

- Made in the USA: durable steel construction and industry-best locking mechanism
- Steel cabinet houses custom steel enclosure with 16-port, state-of-the-art Cambrionix universal USB hub that meets iPad™ specs for simultaneously charging or syncing to iTunes™ or Apple Configurator (on Mac); other tablets that charge and sync through USB are supported
- USB hub is "future-proof," permitting user-updatable firmware updates to support any future USB charged devices, up to 2.1A per port
- Extremely compact footprint: takes up very little desk or counter space
- External, lighted on/off power switch and USB connection (cable provided)
- Adjustable dividers and unique adjustable backstop design (supports most cases and accessory configurations)
- Power supply: 225W, 45A, 5V, 115/230 VAC; built-in DC fan, UL/UV/CE approved; Level V efficiency meets Energy Star standards
- Innovative labeling system lets you personalize your cabinet
- Mounting holes for bolting to counter or desk
- Product weight: 43 pounds
- Dimensions (case): 13"W x 19.3"H x 16"D
- ETL listed
- Designed for use with Apple-provided iPad mini USB cables
