DS DATAMATION SYSTEMS INC

Secure and Charge iPads or Tablets

The challenge: Protecting and re-charging iPads™ and tablets as they are being deployed in classrooms, libraries and training facilities. This table-top cabinet takes up very little physical space and delivers an ideal storage and charging solution just where it is needed. The cabinet handles 16-20 iPads or tablets (depending on dimensions).

Secure: The DS-NETSAFE-IPC has a very secure integrated locking mechanism, the hallmark of all Datamation Systems products.

Charge: The DS-NETSAFE-IPC simultaneously charges up to 20 iPads or tablets and plugs into standard wall outlets. It contains two 12-outlet UL-listed Belkin power strips with adjustable outlet blocks to handle the AC adapters and provide some extra accessory outlets.

If you keep your iPads or tablets in cases, the Netsafe's dividers can be adjusted to handle even the thickest cases we have seen. (Not all carts and cabinets can say this.)

Sustainable: The DS-NETSAFE-IPC is made with recycled material where possible with an energy-efficient design. It is durable and adjustable, so it can change with new technology.

Model # DS-NETSAFE-IPC

FAMIS # TM0001046

Price: $730.00

Contract Number: B222601

Vendor Code: DAT014

- Durable steel construction and industry-best locking mechanism
