

Secure Charging Cart for Chromebooks, Notebooks or Tablets

Rear door: inside view of QUICK→SET cable management

- Secures and charges up to 24 Chromebooks, notebook PCs (up to a 15" screen) or tablets on two shelves (12 per shelf), stored vertically
- Innovative and secure three-point locking system: simply *the most secure* cart of its type, *anywhere*
- Rear locking door with access only to the power strips and cabling; allows fast, easy, secure set-up
- Power supply bricks plug directly into IEC adapted outlets. This removes 72 feet of cabling, making the installation/integration of the cart quicker and neater than any conventional cart (QUICK→SET).
- 24 power outlets; two auxiliary outlets configured for any block plug use; single exit cord; external lighted on/off switch, IEC adapters included
- Molded cord wrap brackets for safety and convenience
- ABS fire-rated plastic dividers; removable and adjustable in ¼" increments
- Additional equipment can be placed on top
- ETL Listed for safety
- Four 4" medical grade wheels (4 swiveling; 2 locking)
- Color-coded keying for front and back compartments
- Weight: 132 pounds (empty)
- Dimensions: 24.5"W x 23.3"D x 40.5"H
- Shelf dimensions: 1 5/8"W (adjustable) x 16 ½"D x 11 ¼"H
- Proudly made in the USA

Model # DS-UNIVault-24

FAMIS # 35-8571.54.5

Price: \$1,150.00

Contract Number: B222601
